

## SUMMARY

---

Senior React Native developer with 5+ years building and shipping cross-platform apps (Expo / EAS) for finance, health and social products, on top of more than 7 years of overall development experience.

I am looking for React Native Developer roles in remote consultancies where I can lead iOS/Android builds, releases, and app performance.

I have led EAS build and release pipelines, integrated REST APIs and analytics (Sentry, Amplitude, Firebase), and improved performance on media-heavy screens in remote consulting teams.

I work autonomously in distributed teams, coordinating through Jira and Confluence and managing priorities in fast-paced consulting environments.

## PROFESSIONAL EXPERIENCE

---

### **Senior Full-Stack — Mosaic.photography (personal project) · Jan 2025 – Present**

- Built the PWA and Android + iOS Expo apps end-to-end, including UX and app-store submissions.
- Shipped EAS releases and optimized ASO, integrating analytics (Sentry, Amplitude).
- Improved mobile gallery load times by refining CDN usage and lazy loading for high-resolution images.
- Navigated Apple App Store and Google Play review for a curated nude-art photography gallery, ensuring full compliance with sensitive-content guidelines and age ratings.

### **Senior Frontend — Remoryo App (for [3spaceAI](#)) · Apr – Oct 2024**

- Led the frontend for a cross-platform React Native + Expo app (TypeScript) for iOS and Android.
- Collaborated with a fully remote team across European and Latam time zones and owned technical communication with the client in Germany.
- Owned EAS build/release pipelines, integrated REST APIs, and optimized media-heavy screens, reducing jank and memory overhead and cutting frame drops and crashes reported by QA.

### **Mid-Senior Full-Stack — TCA-Statistics (for [TheCirculArt](#)) · Oct 2023 – Mar 2024**

- Delivered an interactive analytics dashboard (Next.js, TypeScript, Tailwind, Supabase).
- Implemented efficient data-fetching patterns, server-side queries and client-side caching for responsive visualizations on large datasets.

### **Mid-Senior Full-Stack — sweet-text.ai (personal project) · Dec 2023 – Feb 2024**

- Built an AI text-enhancement web app with Next.js, TypeScript and the OpenAI API.
- Focused on low-latency API integration and resilient UX under variable network conditions.

## Mid Frontend — Johner Institut (for [3spaceAI](#)) · Oct 2022 – Oct 2023

- Delivered a healthcare web solution (Next.js, TypeScript, Tailwind, Supabase) on Render, meeting performance SLAs.
- Independently built a quit-smoking prototype (React Native + Expo) end-to-end, including UX and backend.

## Junior → Mid Full-Stack — [myPension](#) (employee) · Aug 2019 – Oct 2022

- Co-maintained web and React Native (Expo) apps for a pension platform.
- Led a UI redesign, resolved cross-platform bugs, integrated Express/MySQL APIs, and supported CI/CD and release workflows.

## Junior Full-Stack — Leo-Leo Hessen (for [HKM](#)) · 2018 – Present

- Built and maintained a PWA and admin panel with secure authentication and user management (React, Express, MongoDB).

## Webmaster & Graphic Designer — [Instituto Cervantes](#) · 2008 – 2017

- Worked as a CMS webmaster and graphic designer for multiple European centers before pivoting full-time to JavaScript and React development in 2018.

## SELECTED PROJECTS ([full portfolio](#))

---

**Mosaic.photography** — [PWA](#) / [Repo](#) + [Android](#) and [iOS](#) / [Repo](#): Lead developer — built the PWA and Expo apps, engineered CDN-backed Supabase+S3 image pipelines for high-res galleries, optimized mobile memory/CPU, ran EAS releases and ASO, and integrated Sentry & Amplitude.

**Remoryo App** — [Android](#) and [iOS](#) (Private repo): Led the cross-platform React Native + Expo frontend, implemented Zustand state and REST flows, and owned EAS build/release pipelines. Tech: TypeScript · Expo · Zustand · Docker.

**TheCirculArt-statistics** — [Website](#) / [Repo](#) : Full-stack — focused on performant client- and server-side data patterns for dashboards (Next.js · TypeScript · Tailwind CSS · Supabase).

**Sweet-text.ai** — [Website](#) / [Repo](#): Full-stack — focused on OpenAI API integrations and responsive UX; Tech: Next.js · TypeScript · OpenAI API.

**Leo-leo-hessen.de** — [PWA](#) / [Repo](#): Full-stack — developed web applications using React, JavaScript, Express and MongoDB.

**MyPension.de** — [Website](#) + [Android](#) and [iOS](#) (Private repos): Full-stack — built web and cross-platform mobile apps using React Native & Expo, ReactJS, JavaScript, SASS, Express, MySQL, and Redux.

## TECHNICAL SKILLS

---

**Core:** TypeScript, JavaScript (ESNext), HTML5, CSS3 | **Mobile & Frameworks:** React Native, Expo, EAS, React 18+, Next.js 15+, PWA patterns | **State & Data:** Redux, Context API, Zustand, REST APIs, async programming patterns, efficient data fetching and caching (Supabase Edge Functions) | **Builds, CI/CD & DevOps:** EAS/Expo build pipelines and processes, Git, CI/CD, Docker, Vercel, AWS Amplify | **Cloud, Storage & Delivery:** AWS S3, CloudFront CDN, Supabase, MySQL, MongoDB | **Performance, Monitoring & Analytics:** Performance optimization for mobile and web, Google Analytics, Sentry, Amplitude, StoreReview (Expo), SEO / ASO | **Tools & Workflows:** Git, [Jira](#), [Confluence](#), Figma, Puppeteer, testing and code reviews.

## EDUCATION & CERTIFICATIONS

---

**NotJustDev** — React Native Mastery (8-week, [course](#)) · Jan 2026 – ongoing

**NotJustDev** — React Native Incubator [Program](#) (10-week, [demo day](#)) · Oct – Dec 2025

**codeWithBeto** — React Native Tutorial (12 hours, [course](#)) · April 2025

**Frontend Masters** — Sr. Web Developer path (~120 hours, [certs](#) and [profile](#)) · Oct 2024 – Feb 2025

**Deeplearning.AI** — ChatGPT: Prompt Engineering for Developers [course](#) · Nov 2023

**Campus-MVP** — Advanced JavaScript (120 hours, [certificate and contents](#)) · Jan 2023 – Sep 2023

**BCS** — JavaScript Bootcamp (500 hours, [certificate](#)) · Jan 2018 – Mar 2018

**freecodecamp** — JavaScript Front-end (~300 hours, [course](#)) · October 2017 – December 2017

## LANGUAGES

---

Spanish (native) · Catalan (native) · German ([C2](#)) · English (C1) · Italian (B2) · French (B1)

## SOFT SKILLS

---

I proactively communicate progress and blockers in remote setups, document technical decisions, and help teammates through code reviews and pair debugging.
